### 03 / Operations

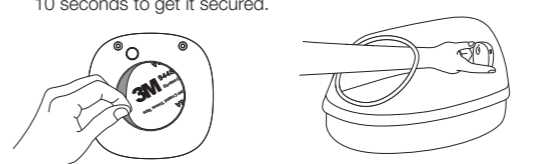

① Wipe and clean a spot above the toilet (20-40cm away from the litter box is ideal) or the inside of the litter box with a dry cloth. (DO NOT use detergent to avoid affecting the stickiness).

② Short press to turn on the eliminator: the LED indicator flashes three times.

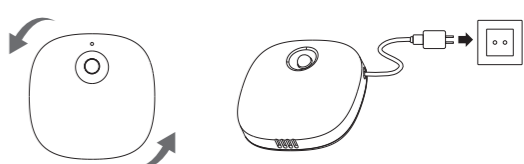

③ Peel off the 3M sticker on the back, place the air outlet downward, stick it to where you expect, and press it evenly for 10 seconds to get it secured.

### Charging

Rotate 90° counterclockwise to remove the eliminator or directly connect to the power supply for charging. It will be fully charged in 3.5 hours.  
 \* The power supply needs to be purchased separately!

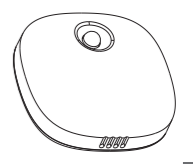

### Working

**Working:** Emit once every interval of time, working in cycles.

### After motion detected:
